The Institute for Health & Ageing (IHA) is pleased to present talks from colleagues and collaborators working across a range of disciplines relative to the pursuit of health and active ageing. Presentations are followed by an opportunity for discussion.

**Implementation Science—Translating Research into Policy and Practice.**

Dr Rankin is a research fellow at Sydney Catalyst, a Translational Cancer Research Centre which, through a translational research program, aims to improve health outcomes for people affected by cancer. The program facilitates the rapid translation of scientific discoveries into policy and practice.

Dr Rankin has more than 15 years experience working in cancer control, primarily in psychosocial and behavioural aspects of patient care. She has undergraduate qualifications in Psychology and Sociology and completed her PhD in 2000 in the discipline of Behavioural Science in Relation to Medicine at the University of Newcastle.

Dr Rankin’s research interests are in the implementation of evidence into cancer practice and policy. She has significantly contributed to the development and implementation of psychosocial clinical practice guidelines and has led implementation and evaluation programs in psychosocial oncology, specialist breast cancer nursing and models of peer support.

Dr Rankin was awarded a 2016-2017 fellowship in the Mentored Training in Dissemination and Implementation Research in Cancer (MT-DIRC) program at Washington University in St Louis.

Colleagues outside the university may participate by teleconference, or by attending in person at Level 6, Spring Street in Melbourne.

ACU colleagues are encouraged to dial in from a campus A/V meeting room, or by using Polycom Realpresence on their computer desktop. A/C room bookings can be made via Servicedesk@acu.edu.au or by calling 07 3623 7272. The Servicedesk can also assist with Polycom installation on your PC or laptop.

Please contact IHA as per the details below to obtain dial-in-details for joining the colloquium via audio-visual link from another ACU location, or via teleconference.

Please note this presentation is scheduled on Australian Eastern Standard Time.

Register your interest in attending with IHA@acu.edu.au / 03 9230 8170
